

Youngman Event Solutions, the latest addition to the Youngman Group!

Youngman Event Solutions are building a portfolio of products for the events market.

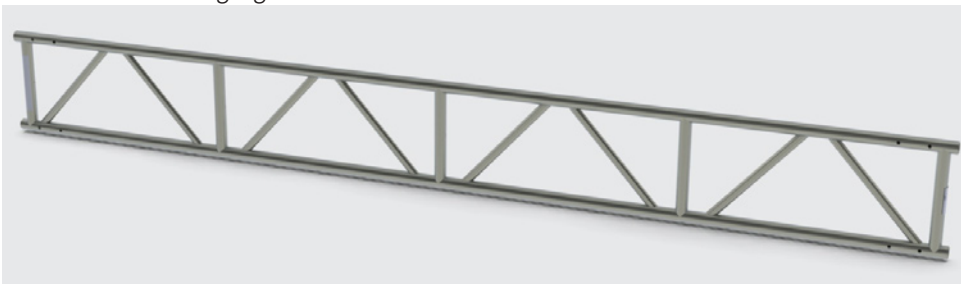

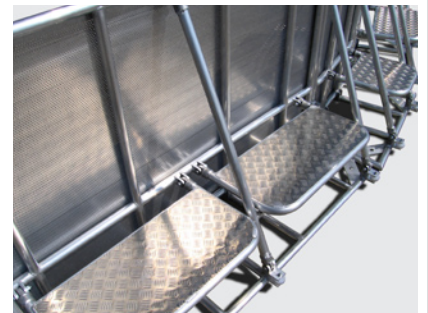

We are the UK's leading access products manufacturer with a great deal of experience and an enviable reputation for quality, innovation and design. Utilising the latest SolidWorks™ CAD software, laser cutting and robotic welding technology we deliver robust products exceeding our clients' expectations.

We're launching an exciting range of products for the events market including:

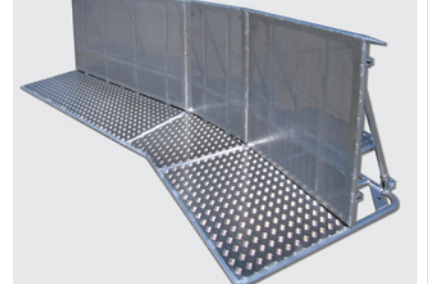

- A camera and lighting tower
- A versatile performance staging system
- A rapid deployment crowd control barrier
- Innovative temporary structures for events and exhibition applications

Performance Staging

Aluminium 2 Chord Beam Units

Crowd Control Barrier

We'll also be adding more new products throughout 2009 – see our website youngmangroup.com for further details
